Reflect on how these values influence your decisions and behaviors. Tools: Use value assessment questionnaires available online. Consult books or resources on personal values.

Practical activity: Take personality and strength assessments (e.g., StrengthsFinder, VIA Character Strengths). Engage in new hobbies to discover latent interests.

4. Envision Your Ideal Future: Imagine your life five or ten years from now. What do you see yourself doing? What impact do you want to have? Exercises: Write a detailed vision statement describing your ideal life. Visualize your daily routines, relationships, and achievements. Purpose alignment: Ensure that this vision aligns with your core values and passions.

5. Synthesize Insights and Define Your ?Why?: Combine findings from previous steps to articulate a clear statement that captures your purpose. Example structure for your ?why? statement: > ?I aim to [contribution or impact] by [action or method], because [core value or belief].?
